

ŠKODA SCALA

ŠKODA
SIMPLY CLEVER

DISCLAIMER : SUBJECT TO CHANGE WITHOUT NOTICE

A BRAVE NEW WORLD

The ŠKODA SCALA is a bold step forward for the brand. Its sophisticated shapes create a striking play of light and shadow that blend timeless design with sporty character. Its dynamic silhouette is embraced by a practical spirit that makes the car the perfect partner for every stage of life.

The SCALA also offers abundant technologies uncommon in the compact hatchback segment. Advanced assistance systems and a new generation of infotainment mean you can stay safe without compromising on fun, on every journey.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

GIVE THE EVERYDAY A SPORTY JACKET

Good design agrees with the heart and the head. Like in the new SCALA. This compact hatchback with a sporty spirit represents the next phase of ŠKODA's design language, while emphasising the strong relationship this brand has with its own tradition and history.

BLACK FEATURES

To add a more sporty and individual signature to daily driving, the SCALA can be enhanced with the optional black panoramic roof, roof spoiler, glass extended over the 5th door and attractive 18" Vega Aero alloy wheels, which can have a considerable impact on the overall aerodynamic performance of the car.

FRONT VIEW

Distinguished exterior features like the front grille or sharply cut headlamps in the shape of an arrow give the car an authentic look with a strong identity. Crystalline elements etched on the headlamps allude to Czech crystal craftsmanship, a declaration of the brand's proud lineage.

AERODYNAMICS

Every edge, contour and dimension of the car has been created to optimise aerodynamics. A desirable balance between its width and height projects safety and reliability.

SIDE VIEW

Characteristic lines on the sides of the car enhance its dynamics as shaped by ŠKODA's design language. The impression is even stronger with SunSet tinted windows, which not only accentuate the attractiveness of the exterior, but also protect rear passengers from glare.

REAR VIEW

As a badge of honour, the ŠKODA name proudly embraces the 5th door. This marks the confidence of a brand that has transformed its design philosophy. In models equipped with darkened glass extended over the 5th door, part of the rear lights are integrated into the glass.

A blue SEAT Ibiza is parked in a modern, multi-level parking garage. The car is positioned in the foreground, angled slightly towards the right. The background features a large glass wall reflecting the sky and surrounding buildings. A person is visible walking in the distance. The scene is lit with warm, golden-hour light, creating long shadows and a high-contrast atmosphere. The car's license plate is 4SK 2059.

**LIGHT
DESIGN**

REMAIN IN THE SPOTLIGHT

Light doesn't just illuminate. It inspires. The unique headlamps and slim long rear lights make the car instantly recognisable. The crystalline lamp design with integrated LEDs represents a perfect blend of Czech crystal tradition and modern technology.

FULL LED HEADLAMPS
The top-end option is all about LED technology including corner function. The strip of LEDs for daylight driving positioned at the upper part of the headlamp lends the car its sporty charisma.

FULL LED REAR LIGHTS
The SCALA features horizontally designed rear lights where the familiar C-shape illumination has been updated with a modern twist. This original light signature is accompanied by perfect functionality. The top-end option comes with the full LED rear lights, which are fitted with animated turn indicators – for the first time ever on any ŠKODA. These not only indicate where the driver is about to turn, but also add dynamism to the car.

A detailed view of the front interior of a Volvo car. The image shows the steering wheel with the Volvo logo, the instrument cluster, a large central infotainment screen displaying various app icons, and the center console with a gear shifter. The interior is finished with dark materials and features a red ambient light strip. The text "INTERIOR DESIGN" is overlaid in large white letters on the right side of the image.

INTERIOR DESIGN

IT'S WHAT'S ON THE INSIDE THAT COUNTS

Stepping inside the SCALA is equally impressive. The well-appointed interior radiates with sleek design cues, exceptional spaciousness and cutting-edge digital technology.

VIRTUAL COCKPIT
The Virtual Cockpit displays on-board computer specifications in combination with other information such as navigation. You can choose from five layouts (extended view shown) controlled via the 'View' button on the steering wheel. The SCALA's Virtual Cockpit features a 10.25" display.

AMBIENT LIGHTING
Make your space more cosy and comfortable with LED ambient lights running along the dashboard. Your car can be equipped with white, red or copper lighting.

STYLE AND FUNCTIONALITY
The SCALA's interior is furnished with quality materials and great craftsmanship. Multiple combinations of upholstery and décor mean you can give your car a unique personality. In the roof panel, you can find an additional USB-C slot which is ideal for charging devices mounted on the windscreen.

PERFORMANCE

POWERFUL, NOT POWER HUNGRY

Quiet, flexible, reliable and economical - that describes each of our engines on offer with the SCALA. Regardless of whether you choose a petrol or CNG drive, your SCALA will always behave like a snappy hatchback.

ENGINES

Our offer includes 70 kW, 81 kW and 110 kW petrol engines with excellent acceleration and high torque. While the 70 kW engine comes with manual 5-speed transmission, other engines are available with both manual 6-speed transmission and 7-speed DSG. You can also opt for a G-TEC version with 66 kW engine, driven by compressed natural gas (see G-TEC section).

DRIVING MODE SELECT

Activated with the mode button on the centre console, Driving Mode Select offers Eco, Normal, Sport and Individual modes. If the vehicle is equipped with a lowered chassis that is fine-tuned with the Sport Chassis Control, you can choose between Sport mode and Normal mode via Driving Mode Select.

DSG CONTROL

The automatic 7-speed DSG can be comfortably controlled via the multifunctional steering wheel.
